

SFT-KIT

SIMPLE FIBER TOOL KIT

INTRODUCTION

SFT-KIT Simple Fiber Tool Kit combines all the tools needed for fiber preparation. It includes all necessary tools for stripping, cleaving, cleaning and testing fiber. It is the perfect tool kit for fiber optic installation and maintenance.

PACKAGING LIST

Optical Power Meter 1pc
1MW Visual Fault Locator 1pc
Dual Hole Miller Pliers 1pc
Fiber Cleaver 1pc
Cable Stripper 1pc
Alcohol Bottle 1pc
Fiber Rail Fixer 1pc
Carrying Bag 1pc

DETAILS

Optical Power Meter

Measurement Range: -70~+10dBm or -50~+26dBm

Wavelength: 850/1300/1310/1490/1550/1625nm

Adapter: SC/FC/ST

Visual Fault Locator

Output Power: 1mw

Range: >5km

Wavelength: 650nm

Working Mode: CW or 2Hz Modulation

Fiber Cleaver

Blade Life: 36000 times

Suitable for SM and MM Fiber

Coating Diameter: 250um & 900um

Cladding Diameter: 125um

Dual Hole Miller Pliers

Removal of 250um buffer from 125um fiber,
Additional stripping notch with a diameter of 1.98mm

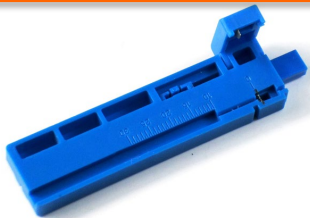

Cable Stripper

Usable Range: 3.1mm to 2.0mm Indoor Cable
Fiber Diameter: 125um
Cut Material: Reinforced Plastic or Metal Core

CARRYING BAG

Outside Dimension: 260x150x200 mm
Inside Dimension: 230x130x170mm

Fiber Rail Fixer

250ML Alcohol Bottle
