MODEL NUMBER: **P046-015-LL-30A**

Heavy-duty extension cord connects your computer or other device with a NEMA L5-30P plug to a NEMA L5-30R outlet.

Features

Heavy-Duty Extension Cable for Network Devices That Require a Heavy-Gauge Connection This cord features 10 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. It can be used to connect a computer, server or other device with a NEMA L5-30P plug to a wall outlet, PDU or UPS system with a NEMA L5-30R outlet. The 15-ft. (4.57 m) length allows you great flexibility in placing equipment with respect to the power outlet.

Locking Connectors Help Prevent Accidental Disconnection and Expensive Downtime Having a cable come loose accidentally can mean the loss of power and costly downtime. Locking connectors on each end help you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking cable is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.
