The Alpha Communications® / TekTone **OF19x** (flush) and **OF19xS** (surface) series entry panel frames are made of heavy gauge extruded aluminum, in a natural (clear) anodized finish.

Both types are used with a variety of apartment entry intercom and video intercom lobby panel modules, alphabetical directory modules, as well as specialty and annunciator modules.

The 19" height on the **OF19x** (flush) series is ideal for mounting alongside standard 19" high vertical mail boxes, if required.
