Heavy-duty power cord supplies power to network devices that require a heavy-gauge connection, such as larger servers and switches.

Features

C19 to L6-20P Power Cable for Network Devices That Require a Heavy-Gauge Connection This 12 AWG power cable is designed for servers, routers, network switches, blade server enclosures and other devices that require a heavy-gauge connection capable of managing high power levels. The fully molded C19 end connects to your device's C20 inlet, and the fully molded NEMA L6-20P plug connects to an AC power source up to 12-ft. (3.66 m) away. The 12-ft. (3.66 m) length allows you great flexibility in placing equipment with respect to the power outlet.

Locking Connector Helps Prevent Accidental Disconnection and Expensive Downtime Having a cable come loose accidentally can mean the loss of power and costly downtime. The locking NEMA L6-20P connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure.
