

# One-Click® Cleaners

One-Click Cleaner Easy-to-use solution for cleaning fiber optic connectors on jumpers and in adapters. Since over 85% of network outages are attributed to dirty and/or damaged connectors, it is critical to clean every connector! The patented One-Click Cleaner uses the mechanical push action to advance an optical grade cleaning tape while the cleaning tip is rotated to ensure the fiber end-face is effectively, but gently, cleaned. It is a favorite of field technicians for its ease of use, durability, effectiveness, and small size. One-Click® Cleaner PRO The One-Click Cleaner PRO is a high-performance cleaner built for speed and efficiency. It features an integrated guide cap design that reduces cleaning time up to 50% by eliminating constant switching of caps for cleaning the ferrule end-face on connectors, in or out of bulkhead adapters. The One-Click Cleaner Pro boasts over 775 cleaning cycles in an ergonomic push-type cleaner, which is a significant increase from the previous model's 500 clean limitation. Designed to meet the needs of data centers, factories, and FTTH environments, One-Click Cleaner PRO optimizes optical connectivity, reduces downtime, and improves efficiency, making it an essential tool for fiber connector cleaning. One-Click Cleaner D-LC (Duplex LC) The One-Click Cleaner D-LC cuts cleaning time in half by effectively cleaning both connectors of a duplex LC connector simultaneously. Available in a long-lasting 500+ clean pen shape. One-Click Cleaner MPO The One-Click Cleaner MPO is a revolutionary push-type cleaner that simplifies cleaning of the ferrule end-face of MPO/MTP® connector. One-Click® Cleaner MMC The One-Click Cleaner MMC is designed to clean Very Small Form Factor (VSFF) MMC multi-fiber connectors used in Data Centers and other high density optical networks, the new One-Click Cleaner MMC is a revolutionary push-type cleaner, which simplifies cleaning of the ferrule end-face of both MMC exposed connectors and connectors in adapters.

## Features

- Patented single-action cleaning in a small ergonomic design
- Variety of sizes and types for different connector styles
- Cleans connectors in both jumpers and bulkhead adapters
- Low cost per clean

### One-Click® Cleaner MMC

- Cleans high-density; low-insertion-loss pinned or

- unpinned MMC connectors
- Patented single-action cleaning in a small ergonomic design
- Precise mechanical action delivers consistent cleaning results
- Automatic tape advance ensures each clean is performed with fresh cleaning tape

## Applications

- Removing oil, dust, and dirt without damaging delicate fiber end-faces
- Both dry and wet cleaning (add cleaning fluid)
- Clean connectors in tight spaces
- Field or laboratory use
- One-Click® Cleaner MMC
  - Clean MMC-16 and MMC-24 connectors on jumpers and in adapters
  - Maximum density, pre-terminated cabling installations
  - High fiber count data center interconnects
  - Structured cabling

## Ordering Information

PART NUMBER	DESCRIPTION
8500-05-0001MZ	One-Click® Cleaner SC/ST/FC (500 cleans)
8500-05-0002MZ	One-Click® Cleaner MU/LC (500 cleans)
8500-05-0008MZ	One-Click® Cleaner D-LC, Duplex LC (2 x 500+ cleans)
8500-05-0030MZ	One-Click® Cleaner MPO (500 cleans)
8500-05-PRO-SC	One-Click Cleaner SC Pro (775+ cleans)
8500-05-PRO-LC	One-Click Cleaner LC Pro (775+ cleans)
8500-05-MMC16	One-Click Cleaner MMC for MMC-16 Connectors
8500-05-MMC24	One-Click Cleaner MMC for MMC-24 Connectors
