5727-1PW SURFACE SINGLE GANG PLASTIC BACK BOX

The Alpha Communications® 5727-1PW Single Gang Plastic Back Box is for use with the TC500 Wireless Emergency Call (and other) Systems. The back box is used to surface mount the SF529ES Check-In/Assistance Station or the SF531ES Emergency Switch.

The 5727-1PW is constructed of durable white plastic to coordinate with the emergency switches, and does not interfere with wireless transmission signals. The back box includes mounting holes on the back for attachment to the wall.

FEATURES

- No interference with wireless signals
- Easy installation
- Slim profile

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The surface-mount single-gang plastic back box(es) shall be Alpha Communications® 5727-1PW or approved equal. The 5727-1PW shall be of plastic construction for durability and for unhindered wireless signal transmission. The 5727-1PW shall be used in wireless applications for mounting the SF529ES Check-In/Assistance Station(s) and/or the SF531ES Emergency Switch(es) (or equivalent). Mounting holes shall be provided on the back to for easy mounting to the wall, and on the front for easy mounting of the emergency switch to the back box. TekTone® has designed the Tek-CARE®500 to work as a system.

It's NC501ES Master Station Computer has been carefully designed and matched to work with Tek-CARE®500 wireless and wired peripherals. TekTone® will not warrant or support components of Tek-CARE®500 that are purchased separately unless the components are add-ons to previously sold systems. TekTone® will also not warrant or support a system that is a mix of TekTone® and Non-TekTone® parts, unless prior written permission has been obtained. In order to track our systems and to inform facilities of software upgrades, full site information (site name, address and phone number) will be required when ordering. Site information and NC501ES warranty number will also be required when requesting technical support.
