

DS-LEDUNV Models

WINNER

- Contact a Peerless-AV® Sales Representative for the current list of compatible latching dvLED display models
- 1:1 and preconfigured models ensure the right solution is available to meet your needs
- Condensed packaging reduces environmental impact, shipping costs, and warehouse space when storing
- Open architecture provides ease of cable management
- Optional Trim Kit Accessory is compatible with most displays (DS-LEDTK Models)

SEAMLESS KITTED UNIVERSAL dvLED Mounting System

The Peerless-AV® SEAMLESS Kitted Universal dvLED Mounting System features a slim and versatile design. This cost-effective, kitted solution is enabled by a patent-pending universal spacer that makes it adaptable for most latching dvLED displays. The display adaptors and mount frame provide X, Y and Z axis adjustments to overcome uneven walls and to ensure the video wall remains flat. The lightweight aluminium frame quickly mounts to the wall and the quick-connect clamps allow installers to easily secure the displays to the mount frame. Compact packaging reduces warehouse space and generally allows for parcel shipping, which lowers the overall delivery costs. Quickly and easily build the perfect dvLED video wall for a corporate reception, retail display, hospitality venue, entertainment setting and much more with Peerless-AV's SEAMLESS Kitted Universal dvLED Mounting System.

DS-LEDUNV610-5X5 shown

*Universal spacer (DS-LEDUNVSPACER) is included with the preconfigured models only, sold separately with the 1:1 models.
