

2N

Gooseneck mounting hood

2N IP Verso 2.0, 2N IP Verso

When wall-mounting isn't an option, the gooseneck design ensures easy access control and communication with drivers entering gated communities, parking lots, industrial facilities, shopping centres, or logistics hubs. It's attractive, sturdy, practical, and effortless.

This gooseneck mounting hood is suitable only for the 2-module 2N IP Verso 2.0 (and 2N IP Verso) with a surface mount frame.

To install the 2N IP Verso 2.0 (or 2N IP Verso) on a gooseneck, you need to order this gooseneck mounting hood along with a gooseneck stand (01351-001) or a double gooseneck stand (01550-001).

Variants

Technical parameters
