120V Internal Battery Module for SV-Series Small/Medium-Frame 3-Phase UPS Systems

MODEL NUMBER: **SVBM**

Internal battery module provides extended runtime for Tripp Lite SV-Series small/medium-frame 3-phase UPS systems.

Features

Gives Your Compatible UPS System Extended Runtime The SVBM is compatible only with SV-Series small- and medium-frame 3-phase UPS systems with an open battery compartment. The 120V DC battery module is a set of four separately packaged battery trays, each with a pre-wired string of 10 internal batteries designed for easy and fast installation inside the compartment. Just slide the battery tray into the open slot and slide the module into the cabinet until the connectors make full contact. Then, secure the tray into place with the included screws.

One-Year Warranty and Environmentally Responsible Design The SVBM comes with a one-year warranty. It's manufactured in compliance with strict RoHS specifications.
