

PRIMEX

Product Specifications

P136ENC-XFX

Copper/Coax Base OSP Enclosure

1. SUMMARY

The Primex Wave P136ENC-XFX is a mid-size Copper/Coax enclosure ideal for broadband SFU and MDU and small business applications.

This enclosure features a conduit adapter and the industry-standard hole mounting pattern for complete customization with accessories. It's scalable to the customer's needs for a wide range of big or small applications.

2. DIMENSIONS

Inside: H 10.1"/W 7.5"/D 3"
 Outside: H 11.5"/W 9.5"/D 3.5"

3. FEATURES & BENEFITS

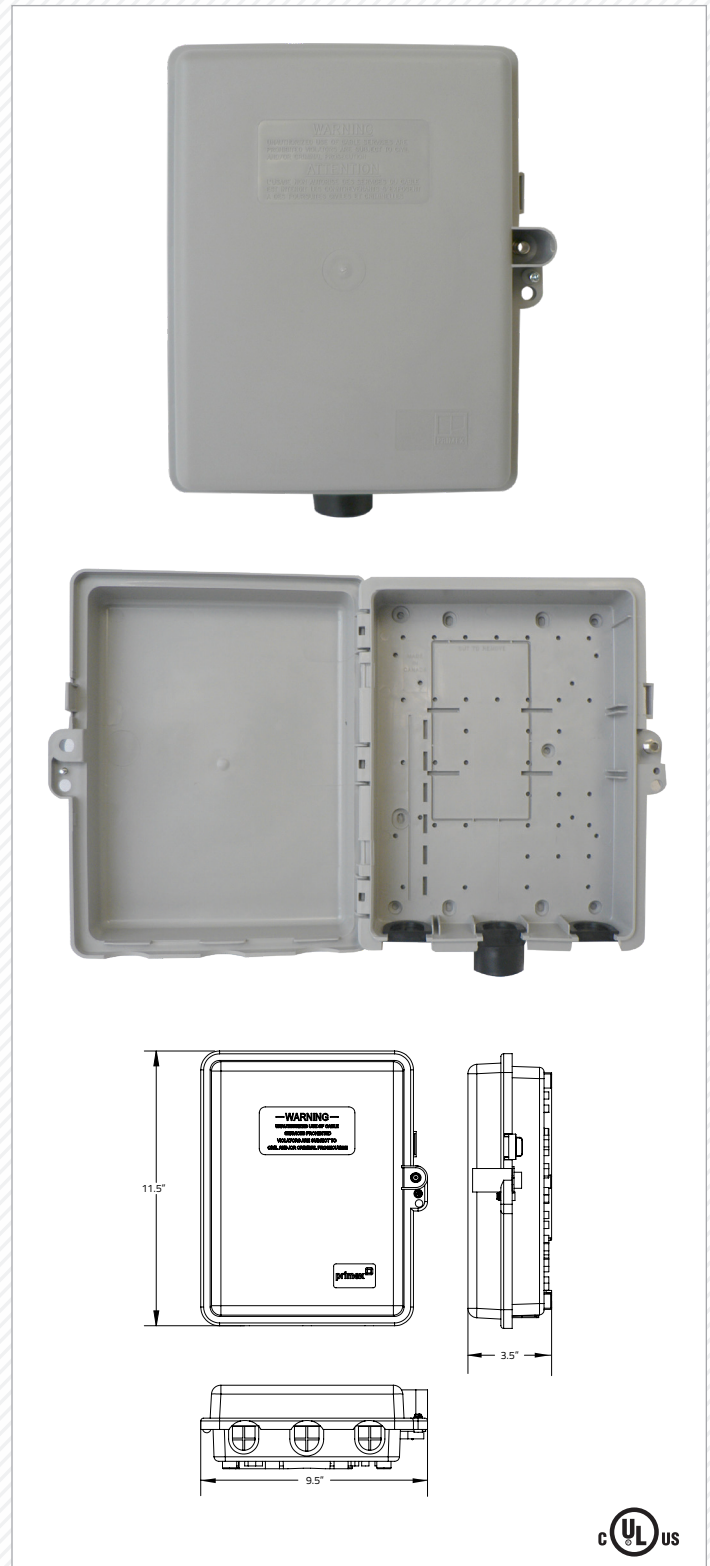

- Blank internal cavity with back knockout allows for customized configuration of accessories and components.
- Adapter allows for easy conduit installation.
- Snap lid and F81 lock provides secure service provider access 24/7.
- High quality PVC or polypropylene made in North America for long-lasting protection in demanding weather conditions.
- Three robust one-inch ports with grommets for protected entry and exit.
- Internal mounting bosses for quick and easy deployment.
- UL-listed and industry-standardized for easy implementation.

4. APPLICATIONS

- FTTH for single or multi family units
- FTTB for small businesses (MTU)
