

Metal Enclosures

The Primex SOHO Access™ Enclosures provide a fast, flexible, and clean distribution management solution for wired security, voice, data, video, and audio connections. The feature-rich, ruggedized enclosure is designed to be either flush mounted between sixteen inch centered studs or surface mounted via recessed mounting holes.

Features & Benefits

- Large internal space for installation of wired active, passive, and cable management components
- Vertical and horizontal mounting hole pattern
- Multiple entry/exit knockouts on top and bottom support microduct and robust cable runs
- Multiple cable tie attachment points offering better, cleaner cable management
- Door cover provide a knock-out for security lock
- UL/cUL listed for security alarm and fire signalling applications
