

AP032G Series Plastic Adapter Plate 3 gang to 2 gang

AP032G SERIES 3-GANG TO 2-GANG PLASTIC ADAPTER PLATES

The Alpha Communications® AP032G series adapter plates are designed specifically to cover 3-gang electrical back boxes, and allow the installation of a 2-gang electrical device. Once the adapter plate is affixed to the wall, you can install your nurse/emergency-call (or other similar type) 2-gang station directly onto the adapter plate.

All AP032G series adapter plates are made of GE® Noryl® plastic resin and are 3/16" thick, with beveled edges, in a textured finish.

Installation is quick, easy, attractive and eliminates the need for plastering and painting over the existing 3-gang electrical box.

The AP032G series adapter plates are available in your choice of four (4) popular colors; White (#AP032GW), Ash (#AP032GA), Beige (#AP032GB), and Dukane® Gray (#AP032GG).

Custom-sized AP032G series adapter plates are also available on special request. Please send a detailed sketch to our sales dept., along with the quantity needed, for a prompt quotation.

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The adapter plate(s) shall be Alpha Communications® Model AP032G series or approved equal and shall be large enough to cover the existing 3-gang electrical back box(es). The adapter plate(s) shall be made of GE® Noryl® plastic resin, and shall meet or exceed the requirements of UL-94 V-1. The adapter plate(s) shall be in a (select from White, Ash, Beige, or Dukane® Gray finish). The adapter plate(s) shall be 3/16" thick, with beveled edges, and shall have a textured finish. The adapter plate(s) shall have mounting holes and an opening to accommodate the 2-gang device to be mounted on top of the plate(s).
