Servers Powered by DW Spectrum[®] IPVMS

Scalable, enterprise-level servers, powered by DW Spectrum.

DW servers, powered by DW Spectrum.

Blackjack®

What are Blackjack servers?

Robust and user-friendly video management solutions, highly optimized to provide unlimited scalability, unmatched bandwidth savings and simplified system setup and management. The architecture is cross-platform for complete optimization to match any application.

DW Spectrum

Access and control from your phone or tablet: Our iPhone and Android app allow you to check in on your business from across town or across the country.

Designed and commissioned in the U.S.A

All DW recorders and workstation devices are designed, assembled and inspected in our California facility. Each product undergoes multiple levels of quality control to guarantee the highest quality and performance.

NDAA / TAA Compliant

DW® IP cameras, analog cameras, NVRs, DVRs, network devices and management software sold and distributed worldwide are designed and developed in U.S.A. and Korea. Manufactured in Korea.

Most DW® products qualify for GSA Schedule Contracts and other government opportunities because they are TAA / NDAA compliant.

DIAGNOSIS

Work with DW's technical team to troubleshoot the problem remotely.

ON-SITE SERVICE

If needed, DW certified technicians can be at your site the next day for further diagnostics and repair.

WARRANTY

DW's 5-year warranty will cover replacing the drive and let you keep your old data.

Next business day onsite hardware repair after remote diagnosis

If an issue occurs with your product that cannot be resolved by phone, DW will dispatch a certified technician to attempt repair of your machine at your place of business, usually the next business day.

* Available for Blackjack Rack servers only.

Keep your drive after replacement to ensure data security*

Our Keep Your Drive Warranty delivers users replacement hard drives, without the need to return the defective drives. Users can keep their drives and protect their data and their customer's privacy.

* Available for Blackjack Rack servers only.

Blackjack Monitoring Workstations

Blackjack clients are dynamic workstations powered by DW Spectrum. By offloading monitoring to a dedicated workstation, Blackjack servers operate at optimal performance, and the workstations deliver high-quality video monitoring capabilities without impacting server performance.

Mouse & Keyboard Included

Railkit Included*

Dual Power Supply*

ONVIF conformant

OS on SSD

Hot Swappable Drives*

Dual Network Cards

* On supporting models.
