52-Port Gigabit Web Smart PoE+ Switch with 10G SFP+ Slots

TRENDnet's 52-Port Gigabit Web Smart PoE+ Switch with 10G SFP+ ports offers advanced L2+ features with enhanced traffic management controls to meet the evolving demands of SMB networks. Contact us to learn more!

10G SFP+ Ports

Offers four dedicated 10G SFP+ ports for high-speed network connections, providing a cost-effective solution in adding 10G link capability to an SMB network.

PoE Power

A 410W total PoE power budget on the managed PoE+ switch supplies Power over Ethernet devices with up to 30W per port.

Integration Flexibility

Managed switch features include access control lists, VLAN, IGMP/MLD snooping, QoS, RMON, SNMP trap, and syslog for monitoring and flexible network integration.

- 48 x Gigabit PoE+ ports, 4 x 10G SFP+ ports
- Easy-to-use web-based management interface
- IPv4/IPv6 Static Routing support
- Bandwidth control per port
- Smart fans
