CABLE AND WIRE OPTIONS

GRI stocks three basic lead lengths at a reduced cost for our customers. Special lengths, colors and styles are available for an additional charge. Call for pricing.

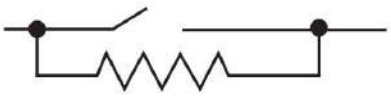
12" Leads #22AWG	Standard
36" Leads #22AWG	Stock Item
72" Leads #22AWG	Stock Item
Special Lengths #22AWG	Non-Standard
Zip Cord	Non-Standard
Jacketed 2 Conductor	Non-Standard
Jacketed 4 Conductor	Non-Standard
Jacketed 6 Conductor	Non-Standard
#5702 Armored 3/16" ID Bulk SquareLok	Unstrung Cable
#8296 Armored 7/32" ID Bulk SquareLok	Unstrung Cable
#8449 Armored 5/16" ID Bulk SquareLok	Unstrung Cable
#5702 & #8296 Armored Cable	Strung Including Ferrules
#8449 Armored Cable	Strung Including Ferrules
Supervisory Loop	Using Standard Wire
Dummy Center Terminal	

DIODE & RESISTOR SWITCHES

GRI makes resistors and/or diodes built-in the switch for your convenience. Our standard tolerance is ± 5%. Other tolerances are available upon request. Call for available values and with any questions.

RESISTORS	DIODES
1 Resistor Any Value	1 Diode
2 Resistors Any Value	2 Diodes

Series Resistor



Parallel Resistor

SPDT & DPDT is available in a variety of GRI recessed and surface mount contacts as well as standard gap, wide gap & extra wide gap.

MOLEX CONNECTIVITY

GRI offers crimp connections, allowing us to accurately and efficiently add Molex, AMP/TE, and other connectors to our security switches and environmental sensors. Most suitable for high precision stripping and subsequent crimping of terminals for wires between 30-12 AWWG (0.05-4.00 sq.mm).

CUSTOM MANUFACTURING

We offer custom manufacturing to help you out in those special situations where a standard product just won't work.

All costs are approximate and subject to change without notice.

When Reliability Counts — You Can Count On GRI!

The statement, ***"a switch is a switch,"*** usually comes from those we refer to as price shoppers. This type of person only seems to considers the actual cost of the contact in computing the cost of installation. The cost of repeated trips to the site of a false alarm, or complaints from customers that their system is not operating correctly, isn't typically considered. Just what is the expense in a warranty service call? Certainly more than the price of a switch!

Quality Control

GRI's ***"ZERO" Defect Program*** is the standard our employees follow. They know that quality cannot be inspected "in". We build with quality parts, quality people and quality standards. Each GRI production line must 100% inspect the sub-assemblies produced by their line. Quality control inspectors then do an on-the-spot inspection of 20% of these sub-assemblies ***prior*** to moving the lot onto the next process. If any defective assemblies are discovered, another 20% of the lot is inspected by Q.C., continuing on up to 100% inspection. All faulty assemblies are discarded plus an investigation is begun to determine the cause for the defective assemblies.

Lifetime Warranty

GRI is one of a very small group of manufacturers that continues to offer customers a lifetime warranty on standard magnetic reed contact products. We have always felt, that with this guarantee, we are showing the confidence GRI has in our workmanship and quality of components used in manufacturing our contacts. To see the confidence level of other switch manufacturers, check out their warranty.

Individual Private Labeling

Private labeling adds credibility to your company. GRI offers a variety of private labeling, including heat stamp, foil and mold insert. All surface mount switches, except the 50 and 50F series, are available for this service. First time heat stamp orders require a one-time set-up charge of $30 - $50, dependent upon the intricacy of the plate design, plus the $.05 per case charge. Please contact us for any mold insert labeling as they require a special quote process. All private labeling must have a minimum order of 100 sets. Camera ready art work is required.

Foil colors available for private labeling are: gold, silver, red, blue, green, black and white.
