

## PR10 Media Panel

The SOHO Pro PR10 Brownfield media panel provides a compact, lockable, and aesthetically clean retrofit mounting solution for today's Gigabit service provider gateways.

This versatile enclosure securely holds major gateway brands via the included mounting tape, and neatly contains cable with adjustable clips and knockout access ports.

Mountable either directly on-wall, or free-standing with the optional feet, this enclosure features an efficient, passive heat dissipation design, and plug and play keystone knockouts for fast and clean installations.

### Applications

Single and multi family units

Small businesses

### Features & Benefits

- Compact enclosure that securely and discretely holds Gigabit gateways
- Efficient and easy to use design allows for complete installation in minutes
- Free-standing or wall-mountable (mounts over electrical wall plates) for versatile residential installation
- Robust cable management clips and knockouts provide clean installation and finish
- Hex lock model (125-1956) available for increased tamper-protection by end-user
- UL-compliant and fire-retardant plastic tested for heightened safety and durability

### Dimensions

Inside: H 9.9"/W 10.2"/D 6"

Outside: H 10.8"/W 10.6"/D 6.6"

Outside (w/feet): H 12.1"/W 10.6"/D 6.6"
