

VKG2/xAS G2+ Series Video-Intercom Kits W/Surface Entry Panel

Each VKG2/_AF Kit Consists Of:

ART4XLITE/G2 Surface Mount 4.3" Indoor Video-Intercom Monitors (qty. of 1 to 10 depending upon kit selected)

D4L-G2/SMALL 4-way video bus splitters (qty. of 0 to 3 depending upon kit selected)

(1) Aluminum NEXA Door Station (supplied with SURFACE back back box), with 1 to 10 push-buttons. 1-Button model shown

(1) Aluminum NEXA Door Station (supplied with SURFACE back back box), with 1 to 10 push-buttons. 10-Button model shown

(1) **EL632/G2SE** Camera and Speaker/Mic. Module (installed into the NEXA panel)

(1) Surface aluminum back box with standard rainhood for the NEXA panel (model# **N871/AL** shown)

(1) **FA-G2** System Power Supply/Amplifier

(1) **EL610D** Pushbutton Module (in kits with 3-10 pushbuttons)

DOOR STRIKE POWER NOTES

The **EL632/G2SE** Camera/Speaker/Microphone module provides 12VDC power for a 12VDC door strike. If another voltage door strike is used, the installer must provide a separate low-voltage door strike power

VKG2/_AS G2+ SERIES VIDEO-INTERCOM KITS

The Alpha Communications® VKG2/_AS G2+ series video-intercom kits feature our least expensive multi-unit video-intercom system and configurations, for buildings with 1 through 10 apartments, at a price that can't be beat! The 'x' in the model number indicates the kit size (1-10 apartments). Each kit contains 1-10 **ART4XLITE/G2** surface mount 4.3" screen color video-intercom monitor station (for each apartment) with corresponding number of **D4L-G2/SMALL** video splitters required, 1- **FA-G2** system power supply and 1- NEXA series Aluminum finish surface entry video door station/panel (with 1-10 push-buttons) and the required **EL632/G2SE** color camera/sound module. Kits with 3 to 10 pushbuttons on the door panel also include the required **EL610D** pushbutton module.

Just add an electric door strike (and associated power supply) and 2-conductor wire, to complete your building security system. We know of no other system that can offer all of these features at this cost.

Other voltage door strikes and mag locks can be used with this system, with the addition of the **PK407A** auxiliary relay unit and additional door strike power supply. Please contact us for more information.

FEATURES

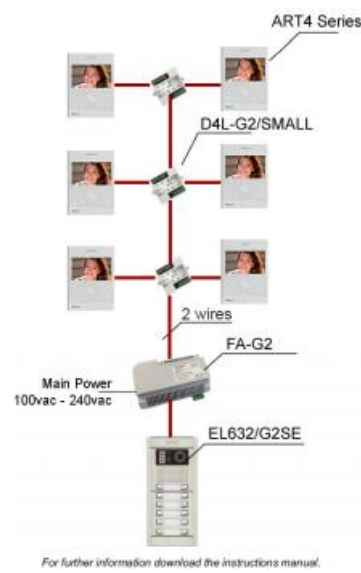

- Simple 2-conductor wiring
- Panels come assembled and pre-programmed
- All Monitors come pre-programmed

supply (for each entrance panel).

G2+ WIRING INFORMATION

The G2+ system uses simple 2-conductor non-polarized wiring making it ideal for new installations as well as for retrofit applications. All audio, video and data functions are fully digital and using the **RAP-GTWIN/HF 100M** (or equivalent) cable you can run up to 160 meters from the entrance panel to the furthest monitor.
