Marked “Controlled” Receptacles

For use with plug load control systems

The National Electrical Code requires all 15 A & 20 A, 125 V receptacles that are automatically controlled to be marked with a specific symbol ⏻ and the word “CONTROLLED” on the receptacle.

- Decora Plus™ and Standard Duplex options
- Conventionally wired and Lev-Lok® modular wiring system platforms available
- Control either one outlet or both outlets
  - For conventionally wired devices with one marked "controlled" receptacle, "hot" tab is split
  - For Lev-Lok devices with one marked "controlled" receptacle, an additional "hot" contact is split internally, and a seperate lead is provided for the controlled receptacle

Comply with NEC Article 406.3(E), CA Title 24 & ASHRAE Energy Efficiency Standard 90.1
