

Empowering domestic preference applications.

TAA-Compliant Government and Education Solutions

Trade Agreements Act (TAA) compliance in the United States refers to the requirement that government contractors must ensure that the products they sell to federal agencies are made or substantially transformed in designated countries that have trade agreements with the U.S.

This is intended to protect domestic industry and promote fair trade and friendly relationships with other countries.

Our experts can help you find compliant solutions and provide a free quote for your new or modernization project with product solutions from APC by Schneider Electric.

NetShelter Rack PDU

Our standard PDUs with industry-leading reliability, manageability, and security. Ideal for small to medium sized applications and edge computing. Intelligent power management options like metered, switched, metered-by-outlet, and metered-by-outlet with switching.

Smart-UPS

Intelligent and efficient network power protection from entry level to scalable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other network devices.

Smart-UPS Ultra

Ultra-high power density, on-line power protection with lithium-ion batteries and scalable runtime options. Developed for edge computing environments that delivers more power in less space.

NetBotz

NetBotz security and environmental monitoring appliances are designed to protect your hybrid IT infrastructure against environmental threats and unauthorized access risks that can cause unexpected downtime. Enhance your NetBotz system with a wide range of TAA compliant plug and play environmental sensors, intelligent pods, cameras, and rack access controls.
