GLOSSARY

Term	Description
EGA	<p>End of General Availability. Indicates customers are given notice of the EOL date and are guided to purchase spares or units required for any purpose. The product will remain available for purchase to existing or new customers until the EOL date. Customers are encouraged to engage with their Hall Technologies Sales Representative to discuss product and solution migration options.</p> <p>After the EGA date is announced, Hall Technologies may choose to stop implementing new features on the product. Bug reports will be reviewed and, if required, fixed until the EOL or EOS date depending on their severity. Quality Assurance and regression testing will continue until the EOS date. Notice of the EOL, EOS dates are given at the EGA notification.</p>
EOL	<p>End of Life. Signifies that the product is removed from the price list and is no longer available for purchase. The default EOL date is 2 months after the EGA. The EGA-EOL transition period may be shortened or increased as circumstances require. Support agreements and 3-year warranty covering the affected product will remain fully supported until the EOS date</p>
EOS	<p>End of Service. Indicates that all support for the product stops and users continue to operate these devices at their own risk. The default EOS date is one year after the EOL date. The EOL-EOS transition period may be extended as circumstances require. Support agreements and 3-year warranty covering the affected product(s) will remain fully supporting during the EOS based on purchasing date. Service affecting bugs will be reviewed and, if required, fixed until the EOS date.</p>
