

FlexHorns™

Valcom's FlexHorn™ is a compact horn designed for areas with low ceilings and low-to-moderate noise environments. The FlexHorn can be used for indoor or outdoor areas and is weather and vandal-resistant. The FlexHorn is the perfect solution for gymnasiums, prisons, subway and train stations, parking garages, and is waterproof for settings such as car washes, operating rooms and food processing plants. The FlexHorn speaker is available as an analog or IP speaker in one-way or talkback configurations.

Flexible Mounting:

- Recessed - can be mounted into wall
- Surface - mount to wall or ceiling using the adjustable mounting bracket (included)
- Surface - mount to "I" beams using a "C" clamp (included)
