MODEL NUMBER: P024-18N-13A-2R

Extension cord splitter allows 2 devices with NEMA 5-15P plugs to share one AC power input cord and one NEMA 5-15R outlet.

Features

Y-Style Power Cord Splitter Connects 2 Devices with NEMA 5-15P Plugs to One AC Outlet This extension cable splitter allows two devices with NEMA 5-15P plugs to share one AC input cord and one NEMA 5-15R outlet. By connecting two devices to one outlet, the extension cord splitter frees up space in a PDU, UPS system or surge protector and helps reduce cable clutter. You can also free up valuable PDU space by connecting bulky power adapters to this splitter, preventing the adapters from blocking adjacent outlets.

Dual Cable Powers a Wide Variety of Essential Electronics With this splitter, a single NEMA 5-15R outlet can power two devices, such as computers, monitors, printers, instrument amplifiers and other equipment compatible with a 5-15P connector. Ideal for areas where AC outlets are limited, such as rack cabinets, this dual power cable is compatible with most power and extension cords.
