

The HDMI pass through wall plate allows for a clean, professional looking and seamless transition to in-wall HDMI cabling using a wall plate form factor, which offers a more secure installation option over traditional transition methods. The wall plate provides a secure mount within the wall and is not likely to be stolen or misplaced. Unlike traditional pass-through wall plates, this wall plate is constructed by using four-layer computer grade printed circuit boards (PCBs).

The PCB traces are engineered to maintain the critical impedance necessary to transfer digital audio/video signals. Made from 20 AWG steel, this strong wall plate fits standard electrical boxes, and is compatible with decorative trim plates.

## Features & Benefits

Clean, professional looking wall plate form factor	Constructed by using four-layer computer grade printed circuit boards (PCBs)
PCB traces are engineered to maintain critical impedance	Made from 20 AWG steel

## Specifications

### General Info

Product Line	C2G	Color	White
UPC Number	757120410430	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Wall Plate

### Listing Agencies / 3rd Party Agencies

CE	Yes
----	-----

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

Video Resolution	4K, 1080p	Adapter Rear	HDMI Female
------------------	-----------	--------------	-------------

---

Adapter Front

HDMI Female
