

#V-SBOX4

VOSKER Steel Security Box

Short Description

Protect your camera from burglars, animals, theft and environmental damage. Compatible with VOSKER VKX series security cameras.

Long Description

This steel security box is an essential accessory to block access to your VOSKER VKX cameras. Made from premium-grade steel, it helps prevent vandalism and environmental damage. The multiple holes on any side make it easy to insert our cable lock or to use the front hole with a traditional lock.

Features

- Weather-Resistant Heavy-Duty Steel
- Compatible with VOSKER cameras mounting arm
- Holes in the back to anchor to any surface
- Holes on the side to install a standard lock or the cable-lock (#V-CB-LOCK)
- Removable front for easy access
- Compatible with VOSKER VKX series security cameras

Recommended installation

Use with the VOSKER camera mounting arm to benefit from a fully adjustable positioning.

To insert the camera, simply remove the front panel and slide the camera in place. Then screw the mounting arm to the camera to secure it inside the security box.

Alternatively, the steel box can be mounted directly to a surface with screws.
