- ◆ Contacts are on the channel and not where they can get damaged on the floor
 - ◆ No special tools required for installation

4700-A

The GRI 4700-A Series Industrial Track Mount Switches are designed to eliminate false alarms from standard floor switches getting damaged by fork lifts and other equipment. The contacts are moved up onto the track and out of the way of equipment.

The 4700-A Series switches are designed to be easy to install and very adjustable. They can attach to a wide range of track sizes and only require tightening one or two screws to install the contacts. It can be installed on either side of the door and the cable exit can be reversed to simplify installation.

And adjustable magnet bracket extends the reach on particularly difficult installations and self drilling screws shorten installation times. Also with a gap of up to 3 inches, doors that wear and get misaligned are not a problem.

<u>Part Numbers</u>			
<u>Track Size</u>	<u>Closed Loop</u>	<u>SPDT</u>	<u>DPDT</u>
1.75" to 2.75"	4700-A	4701-A	
2.5" to 4"	4700-AXL	4701-AXL	4705-AXL
Gap up to 3"
