

LumiCloud Network Switch License

LCL-SW100

Key Features

- One-Year Subscription License
- Centralized Network Control
- Remote Monitoring and Management
- Simplified Configuration Processes
- Real-Time Network Health Monitoring
- Scalable and Flexible Deployment
- Remote Access with Secure Connectivity

Compliance

- NDA A Compliant

Overview

The LumiCloud Network Switch License offers one year of support for Luminy's Cloud Managed Network Switches. It enables seamless data transmission, real-time monitoring of switch status, PoE management, and network traffic. The license supports centralized management of up to 100 devices, regardless of the number of ports per switch.

Key Technology

The LumiCloud network switch license simplifies network management with secure remote connection, device registration via QR Code, and OTA (Over-The Air) firmware updates included with hardware purchase. Users can authorize devices for sub-account management or revoke authorization for enhanced security and troubleshooting. Upgrading to a full license enables full remote switch and port management for up to 100 Luminy's network switches for one year.

System Requirements and Technical Specifications

Consult the tables below to learn about the features of the add-on and to verify which devices and services the add-on is compatible with.

License Features and Specifications

Below is the list of features the license has.

General Functions <small>*Included with hardware purchase.</small>	Secure Remote Connection*
	Device Registration via QR Code*
	Over-the-Air (OTA) Firmware Updates*
Switch Management	Switch Panel View
	Switch Settings and Status
	Switch Reboot
	Congestion Threshold
	Comprehensive Report
	VLAN
Port Management	Port Status
	Port Settings
	Port Control
	PoE Watchdog
	Port Alert

Device Integrations

Below is the list of devices the license supports.

SKU	Product
SML-6GPA	4-Port PoE Cloud Managed Gigabit Switch (PoE+)
SML-10GPA	8-Port PoE Cloud Managed Gigabit Switch (PoE++)
SML-20GPA	16-Port PoE Cloud Managed Gigabit Switch (PoE++)
SML-28GPA	24-Port PoE Cloud Managed Gigabit Switch (PoE++)

Ordering Information

It is recommended to buy a LumiCloud data package in addition to this license. LumiCloud data packages are offered in 10GB, 100GB, and 200GB options for business users in the USA and Canada. They include high-speed 4G connectivity through AT&T, Verizon, and T-Mobile in the USA, and Rogers, Bell, and Telus in Canada. Plans are offered on a monthly, 6-month and 12-month basis.

SKU	License	Description
LCL-SW100	LumiCloud Network Switch License	The LumiCloud Network Switch License is a one-year license that activates Luminys' high-performance network switches, which are designed for network data exchange, monitoring data transmission, and checking switch status. It supports the management of up to 100 devices, including PoE management.
