

Terra In-Ground Subwoofer

TrSUB-10

Description

Leon's Terra SUB-10 in-ground outdoor subwoofer delivers 360° of deep, impactful bass from an unobtrusive port cap that stands less than 12" above-ground. Its IP65-rated waterproof enclosure ensures that the Terra SUB-10 is fully protected from weather, dirt, dust, and more. Meticulously designed to visually and acoustically match Leon's Terra LuminSound outdoor speakers, the Terra SUB-10 is suited for both high-end residential and commercial installations.
