\* PC with 144Hz graphics card required.

- Dynamic QNED Color
- MiniLED backlighting with Dimming Pro (Precision Dimming for 100")
- Alpha 8 AI Processor Gen2
- HDR10 Pro
- FILMMAKER MODE™

### Key Benefits

#### DYNAMIC QNED COLOR WITH 100% COLOR VOLUME

LG's Dynamic QNED Color with 100% Color Volume and next-gen AI provides vivid color on your screen for a captivating visual experience.

#### BRIGHTER AND BOLDER

LG Dimming Pro controls MiniLEDs with dimming zones that can be individually controlled for better black levels and brighter colors (except for 100" QNED85A which uses Precision Dimming).

#### REFINED PICTURE, POWERED BY AI

Enjoy outstanding picture, which uses AI to detect what you're watching and automatically improves the picture and sound quality to your personal preferences.

#### POWERFUL COLORS THAT POP WITH HDR10 PRO

Keep up with fast action games, sports and blockbuster movies with smooth, crisp motion even in the fastest scenes, with a native 120Hz refresh rate and super-fast VRR 144Hz refresh rate.\*

\* PC with 144Hz graphics card required.

#### JUST THE WAY THEY INTENDED

Filmmaker Mode™: Watch films just how the directors envisioned them with automatic preservations of the director's original colors, settings and frame rate for a true at-home cinematic experience.
