

Steath Horn

Valcom's Stealth Horns house a one-way Flexhorn™ for voice paging and background music. The stylish enclosure provides an unobtrusive, contemporary appearance that blends well with various environments. The Stealth Horn's easy installation makes the speaker perfect for applications such as hotels, offices, museums, restaurants, retail stores, patios, stadiums, and more. The VIP-9831A is for indoor use only while the VIP-9831AL and the V-9830 can be used in indoor or outdoor environments.

IP Stealth Horn enclosure houses a one-way Flexhorn™
