1. SUMMARY

The Primex Shelf Mounting System (SMS) extends the mounting functionality of the Primex SOHO Pro™ P2100, P3000, P4200, P6300, and PR1500 Media Panels.

It provides 3.5" of mounting depth in the interior of the Media Panel and holds bulkier and heavier components securely with the mounting tape and pushpins.

The shelf also compartmentalizes service providers for discrete access (Service Divider Kit). It slots easily into the standardized hole mounting pattern of the SOHO Pro™ Media Panel series.

Available individually, as a Service Divider pack, or in bulk.
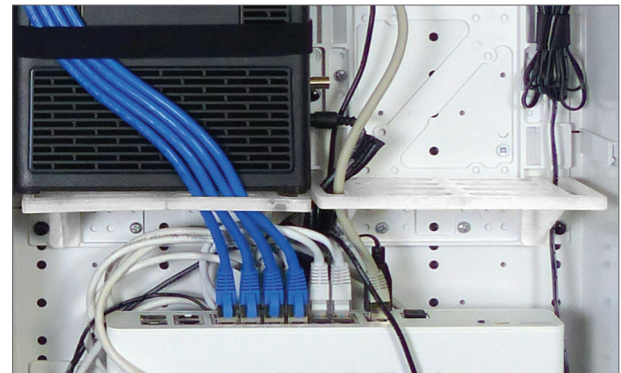

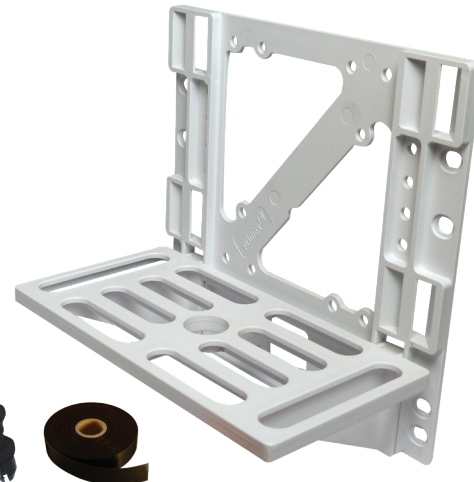

2. DIMENSIONS

SIZE: H 6.4" / W 6.6" / D 3.7"

3. FEATURES & BENEFITS

- Rigid internal component mount for SOHO Pro™ Media Panel line (P2100/P3000/P4200, P6300, PR1500) supports heavy/oversize components up to 5.5lbs.

- Dual shelves act as a divider between service providers.

- Slots into standard hole mounting pattern allowing for quick and easy installation.

- High quality engineered plastic made in North America for long-lasting component mounting.

- Lightweight and easy to install with snap-in pushpins.

- UL 1863 compliant.

4. CONFIGURATIONS

Part #	Description
125-1729	SMS Shelf (single), 2' mounting tape, 10x pushpins
125-1541	SMS Shelf (single), 10x pushpins
125-1542	SMS 'Service Divider' Kit (dual), 10x pushpins
125-1522	SMS Shelf (bulk/18), 5' mounting tape, 10x pushpins

The SMS holds heavy components and acts as a divider between service providers.
