

Wide-Angle IP Video Intercom Door Station

The NDAA-compliant MEGApix® InterCam™ 2.1MP/1080p IP intercom door station streamlines door access management by combining video, audio and person detection alerts. The sleek but rugged DWC-INTCAM02 has a wide-angle lens, white light emitter, IR LEDs, a built-in microphone and a speaker, making it ideal for commercial installations.

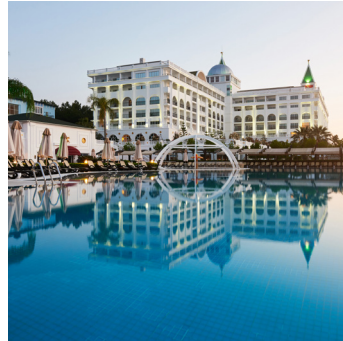

Ideal Markets:

Residential Apartments

Villas

Hospitality

Office Building

Three Devices in One:

The MEGApix InterCam is a video camera, two-way audio communication device and door control in one.

Answer Calls Anywhere, Anytime:

With native support from the DW Spectrum mobile app and DW Cloud, system operators and business owners can react to doorbell activations on the go with picture-perfect and two-way communications.

Remote Management:

Control and manage camera settings and functionality remotely via a built-web client or the DW Spectrum mobile app and DW Cloud.

Single Device Setup:

Cover video, audio, illumination and door control with a single simple installation.

Optimized Video Quality and Wide FoV

With an ultra-wide 2.3mm lens and 2.1MP sensor with true wide dynamic range and low-light performance, the camera delivers best-in-class images in any lighting condition.

Complete Control Remotely Anywhere, Any Time.

Built-in audio communications with excellent call clarity and link to a door's lock, system operators can remotely lock and unlock doors with complete power over their system, remotely.

Wide FoV for a Wide Range of Applications

Wide field-of-view imaging makes the door station capture images of people at a variety of heights, footage from 0.98" (0.3m) to 3.28" (1m) distances from the camera.

Clear Imaging in Any Lighting Environment.

The camera's image technologies help deliver clear and detailed video images even in environments with low light or strong backlight.

White Light Illumination

IR Illumination

Smart IR™ and White Light LEDs for Illumination and Color Images

The camera supports both IR LEDs at up to 10ft (3m) IR and white light LEDs at up to 3ft (1m) to provide color and B/W images with no need for external lighting or additional installations.

The Power of DW Spectrum Mobile App

Keep up with daily operations, in the office or at home, with full control of the camera and door lock from the DW Spectrum mobile app, anywhere, anytime.

Person and Tampering Detection

Detect a person approaching and set alerts or start recording. The camera's anti-tamper housing also ensures that no vandalism or blurry image goes unnoticed.

Versatile Mounting Options

The camera comes with a sun shield cover and angle bracket included to fit its surroundings perfectly.

NDAA Compliant

DW IP cameras, analog cameras, NVRs, DVRs, network devices and management software sold and distributed worldwide are designed and developed in U.S.A. and Korea with manufacturing in Korea, Vietnam and Taiwan.

Most DW products qualify for GSA Schedule Contracts and other government opportunities because they are NDAA compliant.
