MODEL NUMBER: **P007-006-15D**

Heavy-duty computer power cord connects a server, PC, monitor or printer to a surge protector, PDU or UPS with a NEMA 5-15R outlet.

Features

5-15P to C13 Power Cable for Network Devices That Require a Heavy-Gauge Connection This computer power supply cable features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. You can use it to connect a computer, server, monitor, laser printer or drive to an AC wall outlet, surge protector, UPS system or PDU. It can also replace or upgrade the standard power cord provided by the device's manufacturer. The 6-ft. (1.83 m) length allows you flexibility in placing equipment with respect to the power outlet. Note: This cord is not for use in European markets.

Right-Angle PC Power Cable Is Easier to Connect in Tight Spaces The angled NEMA 5-15P connector makes installations easier in confined spaces, such as the back of a rack enclosure cabinet. When plugged in, the right-angle plug guides the computer power supply cable parallel to the wall, allowing you to push furniture up against a wall to maximize space.
