## INSTALLATION APPLICATIONS

The GRI 1100 series offers the installer convenience and versatility with its smaller size and attractive design allowing it to be used in both residential or commercial applications. With its standard gap of over 1" and a wide gap of 1 1/2"+, the 1100 gives even more options for usage. Packaged with covers, spacers and applicable mounting hardware.

**1100**

Magnet has same case as switch.

### GRI PRODUCTS MEET OR EXCEED THESE MINIMUM GENERAL SPECIFICATIONS:

| Part Number | Loop Type   | Electrical Configuration | Reed Form | Max. Initial Contact Resistance (Ω) | Max. Contact Rating (W) | Max. Switching Voltage (VDC) | Max. Switching Current (A) |
|-------------|-------------|--------------------------|-----------|-------------------------------------|-------------------------|------------------------------|----------------------------|
| 1100A       | Closed      | N/O                      | A         | .150                                | 10                      | 200                          | .500                       |
| 1100AWG     | Closed      | N/O                      | A         | .150                                | 10                      | 200                          | .500                       |
| 1100B       | Open        | N/C                      | B         | .140                                | 5                       | 175                          | .250                       |
| 1100BWG     | Open        | N/C                      | B         | .140                                | 5                       | 175                          | .250                       |
| 1100C       | Open/Closed | SPDT                     | C         | .140                                | 5                       | 175                          | .250                       |
| 1100CWG     | Open/Closed | SPDT                     | C         | .140                                | 5                       | 175                          | .250                       |
