

INSTALLATION GUIDELINES and GENERAL INFORMATION:

1. See the specific system wiring diagram for the balance of the wiring connections required.
2. All low voltage wiring is #18 AWG, unless otherwise noted.
3. Observe all local and national electrical and building codes.
4. Each system is wired independently and uses an independent 24VAC (model SS106) transformer (or equivalent).
5. Wiring shown is applicable to our model EK119B Emergency-Call kits only.
6. Wire colors shown are the pigtail wires on the back of the SF119/2A pull cord station(s) and CDL123B Dome Lights (with 24VAC buzzer).
