PRODUCT DISCONTINUATION

Global Announcement

Large Area Multi-Channel Infrared Transmitter

February 2023

WilliamsAV.com

CONFIDENTIAL – FOR WILLIAMS AV AUTHORIZED REPS AND RESELLERS ONLY

Williams AV is announcing the discontinuation of the Large Area Multi-Channel Infrared Transmitter (WIR TX90 DC) and Two-Channel Infrared System (WIR SYS 90 ADV) effective immediately. **Limited Supplies Remaining.**

The discontinuation of these products is part of a planned product retirement strategy based on the availability and enhanced capabilities offered by Williams AV's SoundPlus IR products. The SoundPlus IR products provide dual infrared and Wi-Fi audio options, are scalable, can be rack mounted, and are available in Dante models. In addition, the DSP controls on SoundPlus IR products provide an enhanced audio experience and allow administrators to manage the configurations remotely through an online web interface.

Effective Date	April 2023 or while supplies last
-----------------------	-----------------------------------

Retired Part Number	<ul style="list-style-type: none">• Large Area Multi-Channel Infrared Transmitter (WIR TX90 DC)• Two-Channel Infrared System (WIR SYS 90 ADV)
----------------------------	--
