Monitors

Professional Video Wall Monitors

Professional Video Wall Monitors produce sharp, true color images that can be used in security rooms and a variety of other applications. These LCD displays are the perfect solution for Ultra High Definition (UHD) video walls. With an integrated video wall processor, and the ability to take a single video source and display it across multiple panels, it is possible to create *huge virtually seamless displays that are an excellent choice for Command & Control Centers where fine details are critical. *Arranging 9 Razor-bezel Professional Video Wall Monitors into a 3 x 3 configuration creates a 165" 4K Ultra High Definition (UHD) image.

Illustra Flex Cameras

Illustra Flex cameras provide affordable high quality megapixel video at a fraction of the cost. True Day/Night and 3D Dynamic Noise Reduction technology improves video quality and reduces storage requirements in low light conditions while the Wide Dynamic Range feature increases the image quality of objects dimly lit by bright backgrounds.
