www.assaabloydss.com/premier

The ASSA ABLOY Group is the global leader in access solutions. Every day we help people feel safe, secure and experience a more open world.

A: ASSA ABLOY Expertise

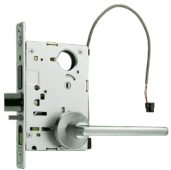

The consultative door opening experts from ASSA ABLOY can be your sustainability resource, providing support related to green building standards, programs, and certifications. Many ASSA ABLOY representatives have attained LEED accreditation and can provide valuable insights and a unique perspective for your green building project.

Rely on the consultative experts from ASSA ABLOY to help you:

- Reduce energy consumption
- Streamline installations to reduce costs and materials
- Know exactly what goes into the products you're using

A: Innovative Technology

High performance buildings demand progressive products, from the inside out.

EcoFlex®
Mortise Lock

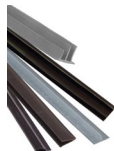

EcoPower®
Power Supply

EcoMag®
Magnalock

EcoFlex™
Exit Trim

Pemko
Weatherstripping

Mercury Doors
and Frames

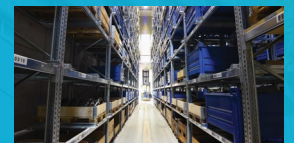

A: A Transparent Approach

Now more than ever, access to information about the entire life cycle and environmental impact of a product is imperative to a project team and building owner. ASSA ABLOY provides comprehensive information about the sourcing of raw materials, the efforts to optimize product ingredients, and the manufacturing processes for our products. We also provide an end-of-life recycling option to ensure proper care at the end of a product's useful life. Through these efforts, ASSA ABLOY is able to provide more responsible door and hardware solutions that can contribute in a positive way to an entire facility.

Responsibility at All Stages of the Value Chain

1. MATERIALS

2. MANUFACTURING

3. PACKAGING

4. TRANSPORTATION
