

DXS-LR Series Long-Range Transmitters

Accessories for Linear Personal Emergency Reporting Systems

The DXS-LR Series Long-Range Transmitters are the latest in style and performance in Linear's full line of Personal Emergency Transmitters. These updated designs and new features make full-time use easier than ever.

The transmitters use a crystal oscillator design allowing for increased output power in a smaller, sleeker, more attractive and lighter weight design. This provides improved transmission reliability and range, while remaining in compliance with FCC regulations.

The DXS protocol devices are compatible with Linear's existing and future generations of PERS Consoles and alarm panel systems.

FEATURES

DXS-LRP Long-Range Pendant Transmitter

- More appealing, lighter weight "jewelry" design
- Pendant has an adjustable lanyard with a breakaway release
 - No assembly required
- DXS-LRP (White) DXS-LRP-BK (Black)

DXS-LRW Long-Range Wristband Transmitter

- Transmitter showcases an easy to wear thin profile wrist band
 - No assembly required
- Adjustable band fits wrist sizes from petite to large, compatible with after market wrist-watch replacement bands

DXS-LRC Long-Range Convertible Transmitter

- "Platinum" finish provides an updated appearance, and offers customers an additional color choice to LRP and LRW
- Can be worn either as wrist band or pendant
 - Easy for subscribers or family members to assemble

DXS-LR Series Long-Range Transmitters

GENERAL FEATURES

- Increased output power - (remains in compliance with FCC regulations)
- Improved transmission reliability and range
- Extra long-life lithium ion battery
- Recessed activation button helps to prevent accidental transmissions
- Shock and water resistant (up to 30 minutes at a depth of three feet), providing worry-free operation for years of use
- Full RF supervision-capable (optional); alerts provider of potential trouble via status and low-battery reporting
- Two-color visual activation indicator
- Unique transmitter code printed on labels and packaging to allow for field enrolling with compatible panels and consoles

SPECIFICATIONS

DXS-LRP Long-Range Pendant

- Dimensions: 1.25" W x 2.0" H x 0.375" D
- Weight: 0.33 oz (9.45 g)
- Color: White or black with black lanyard
- Order number: SST00122 (White)
SST00126 (Black)

DXS-LRW Long-Range Wristwatch

- Dimensions:
Transmitter: 1.125" W x 1.7" H x 0.375" D
Adjustable band: 6.25" - 8.25" length
- Weight: 0.34 oz (9.65 g)
- Uses standard 18mm watch band pins
- Color: Black with black wrist strap
- Order number: SST00123

DXS-LRC Long-Range Convertible Transmitter

- Dimensions:
Transmitter 1.3"W x 1.8" H x 0.375" D
- Weight: 0.45 oz (12.6 g) in pendant configuration
0.38 oz (10.8 g) in wrist configuration
- Order number: SST00124

Shared Specifications

- RF frequency: 315 MHz
- Battery life: up to 4.7 years
- Standard 18mm watch band pins (LRW and LRC)
- Adjustable band: 6.00" - 8.25" length (LRW and LRC)
